Electronic Patient Statements (EPS)

Increase your collections rate and ultimately, your revenue by subscribing to our Electronic Patient Statements (EPS) service. EPS places your practice in a better position to ensure a steady cash flow. By eliminating tedious manual tasks like printing, folding and sorting, you increase efficiency and most of all, save time and money!

With the added benefit of *Statement Manager*, a searchable repository of your patient statements, you have full control of your billing processes. *Statement Manager* allows you to reprint statements and manage address changes easily.

CompuGroup™
Medical

Your Benefits:

- Validation of insurance prior to patient visit
- Increased opportunity to collect appropriate funds at time of service
- Streamlined front office workflow
- Reduced claims rejection rates invalid or expired insurance
- Increased access to benefits information on specific patient services

Insurance Eligibility Verification (IEV)

Are you losing revenue as a result of invalid or inaccurate patient insurance eligibility data? IEV enhances your claims acceptance rate by allowing your practice to confirm patient insurance coverage prior to rendering healthcare services. Traditional patient eligibility and insurance verification by phone is a time-consuming task that takes your staff away from your core service — providing quality care.

When you subscribe to IEV from CGM DAQbilling™, you have access to a large network of payers and this translates into saved time through real-time verification of patient eligibility and/or benefits information.

Below is a summary of your average monthly cost — an estimated total of **\$600.**

ITEM	UNIT COST/QUANTITY	ESTIMATED COST
Labor	\$10.00 x 3 hours/day	\$600/month

With a one-time fee of \$200 only and an on-going subscription fee of \$0.20, IEV can save you up to **\$500** each month!

Electronic Remittance Advice (ERA)

Imagine the benefits of achieving a reimbursement cycle that is significantly shorter than what your practice currently reports. ERA provides instant access to organized and structured electronic remittance, dramatically reducing errors and speeding up processing time. When you subscribe to ERA from CGM DAQbilling™, you have an automated solution that will help you achieve a significantly lower number of days in accounts receivable (AR) for claims which could make you the envy of your peers!
